## SHORT DESCRIPTION

**SAFETY SHOES WITH TOE AND HEEL BUMPER, METAL-FREE AND WATER-REPELLENT UPPER FOR VARYING WORKDAYS.**

TORAVA S3S safety shoes stand up to changing daily demands and are suited to a wide range of work environments where comfort and efficiency matter.

## FEATURES

- Heel comfort insert
- Extended toe and heel bumper
- Comfort insole
- Long lasting stud geometry
- 100% metal-free
- Reflective heel loop

## USPs

| | |
|---|---|
| ZERO METAL | Completely metal-free and ESD-certified for safe use in environments where antistatic properties are required or in workplaces with metal detectors, such as airports, without added weight or bulk. |
| LIGHTWEIGHT COMFORT | Lasting comfort is supported by a lightweight build: textile anti-penetration insole, a light fibreglass toecap, and a cushioning EVA midsole, reducing unnecessary weight and helping limit fatigue over long days. |
| BEST SERVES | Controlled working conditions with mostly dry, even and predictable surfaces, such as: logistics, warehousing and transport, manufacturing and assembly, automotive, light construction, facilities management and field services. |

*Class II: Fully molded boots in PVC, PU or EVA that are waterproof.

Other properties

In addition to the safety class, safety footwear may be required to meet additional performance criteria depending on its intended use or specific working condition. As a result, certification can also include additional properties beyond the safety classification, and may include the following:

## COMFORT

If you are spending most of the day on your feet, the wrong footwear can quickly lead to discomfort and over a period cause long term problems. That's is why our footwear is designed to provide support where it matters most, with a range of styles to suit different needs. It is important that you make sure your footwear fits properly and offers proper arch support.

Note: Always check with your health and safety management if you are unsure of the appropriate specification required by your workplace.

## CARE

Proper care of your safety footwear helps maintain comfort and extends their lifespan. Regularly remove mud and debris from the upper and sole using a brush and warm water. Avoid using direct heat sources such as radiators to dry them and always let them air dry naturally.
